# Is it time to change your broom?

The Elgin Broomstick® is an easy to use 2-sided tool which helps you determine when to replace sweeper brooms. Elgin recommends replacing tube brooms when the filament reaches 7.5 to 7.0 inches and side brooms when the filament reaches 6.5 to 5.5 inches. Use the Elgin Broomstick® to measure broom filament correctly.

**Elgin Broomstick™ Gutter broom change recommendation**  
For best sweeping results replace gutter brooms with Elgin OEM brooms when filament reaches 5.5 to 6.5 inches.  
**Call 1-877-800-1111 for a dealer near you.**  
[www.elginsweeper.com](http://www.elginsweeper.com)  
Made in USA.

**Elgin Broomstick™ Tube broom change recommendation**  
For best sweeping results replace tube brooms with Elgin OEM brooms when filament reaches 7 to 7.5 inches.

## Proper Broom Down Pressure

Improper down pressure can decrease broom life up to 95%.

A broom sweeps with the tips of its bristles. When too much down pressure is applied, the broom is no longer using its tips; the broom is now working with the sides of the bristles. This limits the flicking action of the bristles and limits its sweeping effectiveness.

To check for correct down pressure, operate the broom on the ground and rotate at normal operating speed with the machine remaining stationary. Lift the sweeping assembly. The correct sweeping path of a properly adjusted assembly will clear a 2"-4" pattern. Refer to your operator's manual for sweeper model specifications.

**Mop Action**  
**Incorrect**

**Mop Action Shortens Brush Life**

**Sweep With The tips!**  
**Do Not Mop!**

**Road Surface**

## You trust us with your sweeping, count on us for your brooms.

### Genuine Elgin Manufactured Brooms

Don't get swept up in the "will-fit" sales pitch. Will-fit brooms look similar, but only Elgin brooms are designed to strict OEM specifications, providing better sweeping performance and longer life than a "will-fit" look-alike. A high performance machine deserves a high performance broom. And that's not the only reason to make your choice of brooms Elgin manufactured OEM brooms. Consider the following:

- **Availability:** There are over 80 dealer locations throughout the U.S. and Canada, so the brooms you need are readily available and in-stock at these locations. You can count on your local dealer for fast, reliable delivery.
- **Value:** Because Elgin brooms go on Elgin sweepers you can be guaranteed of the proper form, fit and function of the brooms. Your sweeper and your brooms are from a single source which means Elgin is totally vested in our customers. We care about your sweeping results.
- **Performance:** Each Elgin broom has been specially designed to function properly and provide optimum sweep performance for the specific sweeper it was made for. All main brooms have 4 to 5 end wraps for better pick-up and our side brooms have more wires per hole. It's what we call Performance Matched.
- **Quality:** Elgin Sweeper Company maintains a consistent, high quality manufacturing process for the brooms being produced. Our brooms deliver the same reliable Elgin quality you have come to expect from anything branded ELGIN.

**There's no substitute for an Elgin OEM Performance Matched Broom – you trust us with your sweeping... count on us for your brooms.**

# Main Brooms

Elgin Sweeper brooms are engineered to function precisely with the sweeper's key systems. They are manufactured to strict specifications. When used properly, these brooms provide superior sweeping and longer life on an Elgin sweeper than "will-fit" brooms. Exceptional Elgin sweeping begins with an exceptional broom!

## Single Wrap Tube Broom

More broom wraps and better filament dispersion than "will-fit" brooms, Elgin's Single Wrap Tube Brooms have outstanding surface coverage and set the standard for all brooms.

100% virgin polypropylene resin filaments resist abrasion for longer life while providing better flick action

Consistent red color extrusion insures no reground materials hidden by dark dyed filaments

More filament wraps than "will-fit" brooms allows less down pressure while providing better surface coverage

Four to five tight end wraps provide better pickup at the dirt shoe

One piece unit for a trouble free change

Sweeper Model	Broom Description	Broom Part Number
Broom Bear and Athey	58 inch single wrap broom	7873206
Eagle and Road Wizard	60 inch single wrap broom	7873202
Pelican	66 inch single wrap broom	7873201

## Strip Broom

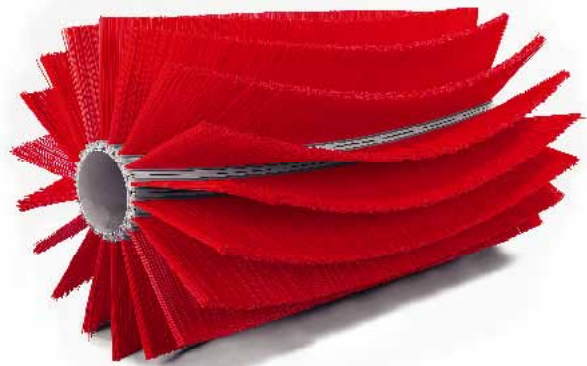

One person can quickly change each polypropylene broom which provides outstanding sweeping on high volume materials such as millings and leaves, as well as standard applications.

Easily refilled core for quick change out

100% virgin polypropylene resin filaments resist abrasion for longer life and are recyclable

Convenient sized boxes are easily stored and less expensive to ship via UPS

Durable steel cores can be refilled again and again

Sweeper Model	Broom Description	Broom Part Number
Broom Bear and Athey	58 inch strip mandrel core	5713880
Broom Bear and Athey	58 inch strip set	5713881
Eagle E and F and Road Wizard	60 inch center sweep strip mandrel core	7970077
Eagle E and F and Road Wizard	60 inch mandrel core strip	7970067
Eagle E and F and Road Wizard	60 inch strip set	7970068
Pelican P, S, NP, and NS	66 inch center sweep strip mandrel core	7970076
Pelican P, S, NP, and NS	66 inch strip mandrel core	7970065
Pelican P, S, NP, and NS	66 inch strip set	7970066

## Double Wrap Tube Broom

With 50% more filament than a Single Wrap Tube Broom, the Double Wrap Tube Broom is a heavy duty broom that provides the best surface coverage and longest useful life of any of Elgin's main brooms.

100% virgin polypropylene resin filaments resist abrasion for longer life

Four to five tight end wraps provide better pickup at the dirt shoe

Most filaments per inch of any Elgin tube broom for better flick action

One piece sturdy steel tube core for easy change out

Sweeper Model	Broom Description	Broom Part Number
Broom Bear and Athey	58 inch double wrap broom	7970187
Eagle and Road Wizard	60 inch double wrap broom	7873205
Pelican	66 inch double wrap broom	7970183

## Combo Sweep Tube Broom

For more aggressive sweeping, the polypropylene and wire filaments easily sweep up compacted debris.

50/50 polypropylene/wire wafer tube broom

100% virgin polypropylene resin filaments resist abrasion for longer life

Hard drawn wire filament crimped on 2 planes cuts through compacted debris

Four to five tight end wraps provide better pickup at the dirt shoe

More polypropylene and wire wraps than "will-fit" brooms

Sweeper Model	Broom Description	Broom Part Number
Broom Bear and Athey	58 inch 50/50 polypropylene/wire wafer tube broom	7970193
Eagle and Road Wizard	60 inch 50/50 polypropylene/wire wafer tube broom	0710068
Pelican	66 inch 50/50 polypropylene/wire wafer tube broom	0710066

## Saver Sweep Broom

For customers looking for the lowest initial acquisition costs, this popular broom offers excellent surface sweeping at an economical price.

100% virgin polypropylene resin filaments resist abrasion for longer life

Consistent red color extrusion insures no reground materials hidden by dark dyed filaments

Four to five tight end wraps provide better pickup at the dirt shoe

One piece unit for a trouble free change

Sweeper Model	Broom Description	Broom Part Number
Broom Bear and Athey	58 inch broom	7970192
Eagle and Road Wizard	60 inch broom	7970191
Pelican	66 inch broom	7873204

## Section Sweep Broom

With polypropylene and/or wire wafers, this broom can be made to provide superior flick and cutting action. Convenient size boxes are easily stored and economically shipped.

100% virgin polypropylene resin filaments resist abrasion for longer life

Galvanized spring steel wire cuts compacted debris

Steel spacers for customizing broom density

Durable one piece core for ease of use

Sweeper Model	Broom Description	Broom Part Number
Pelican and Eagle	50/50 Polypropylene / Wire Wafer	0035617
Pelican and Eagle	Wire Wafer Kit	1007651
Pelican and Eagle	60 and 66 inch wafer filler (main broom)	1007722
Pelican	Wafer Core	1066012
Eagle	Wafer Core	1035876
Road Wizard and Athey	Poly Wafer Main Broom (42 required)	7970096

## Vacuum Sweeper Extension Broom

Designed with the precise agitation pattern needed for your vacuum sweeper, it windrows debris into the suction nozzle.

- 100% virgin polypropylene resin filaments resist abrasion for longer life
- Consistent red color extrusion insures no reground materials
- More filament wraps than “will-fit” brooms allows less down pressure
- One piece unit for a trouble free change

Sweeper Model	Broom Description	Broom Part Number
Whirlwind MV and Megawind	54 inch extension broom	7873203
Whirlwind L and Geovac	60 inch extension broom	7873207

## Combo Sweep Extension Broom

By combining polypropylene and wire filaments, you get the precise agitation pattern your vacuum sweeper needs and the abrasive action for compacted debris.

- 100% virgin polypropylene resin filaments resist abrasion for longer life
- Galvanized spring steel wire cuts compacted debris
- Heavy 16 gauge tubing
- One piece unit for a trouble free change

Sweeper Model	Broom Description	Broom Part Number
Whirlwind MV and Megawind	54 inch broom	1071285
Whirlwind L and Geovac	60 inch broom	0099266

### Polypropylene Center Broom

This optional broom for the Crosswind J and NX provides agitation assistance for the pickup head by loosening compacted debris.

- 100% virgin polypropylene resin filaments resist abrasion for longer life
- Short dense filaments agitate and loosen debris
- Compact size is easy to ship and store
- Lightweight for easy changing

Sweeper Model	Broom Description	Broom Part Number
Crosswind J	78 Inch Polypropylene Broom	7873208
Crosswind NX	78 Inch, Heavy Gauge, Polypropylene Broom	1100243

### Wire Center Broom and Combo Center Broom

Agitation assistance is available with these aggressive polypropylene and wire or all wire brooms. Wire filament provides the ability to cut through compacted debris.

- 78 inch broom
- Galvanized spring steel wire cuts compacted debris
- 100% virgin polypropylene resin filaments resist abrasion for longer life
- Short dense filaments agitate and loosen debris
- Compact size is easy to ship and store

Sweeper Model	Broom Description	Broom Part Number
Crosswind J	50/50 Polypropylene / Wire Broom	7199067
Crosswind J	Full Wire Broom	7970024

Elgin side brooms are a key component in the effective operation of Elgin sweepers. Designed to strict specifications and to function precisely with Elgin equipment, these high quality brooms will provide many hours of sweeping service when used properly.

## Heavy Duty Side Brooms

Filled with up to 24 strands per hole of superior oil tempered or steel wire, these extra heavy duty brooms provide outstanding flick action and superior recovery compared to oil coated or oil quenched “will-fit” brooms.

Superior oil tempered or steel wire for extended sweeping hours

High impact plastic segments—2, 4 or 5 to a set

Densely packed segments for better sweep coverage

Plastic block segments are easily replaced for minimum downtime

Sweeper Model	Broom Description	Broom Part Number
Broom Bear, Crosswind, and Eagle	21 WPH Steel Wire Plastic Segment Set (5)	7873223
Broom Bear, Crosswind, Eagle, and Road Wizard	24 WPH Steel Wire Plastic Segment Set (5)	7873224
Broom Bear, Crosswind, Eagle, and Road Wizard	24 WPH Oil Tempered Wire Plastic Segment Set (5)	7873232
Crosswind Fury, Megawind, and Pelican	21 WPH Steel Wire Plastic Segment Set (4)	7873225
Pelican	24 WPH Steel Wire Plastic Segment Set (4)	7873226
Geovac, Megawind, and Whirlwind	21 WPH Steel Wire Plastic Segment Set (2)	7873227
Megawind and Whirlwind	21 WPH Steel Wire Plastic Segment Set (2)	1095067
Athey	21 WPH Steel Wire Plastic Segment Set (4)	7873043

## Saver Sweep Side Brooms

This popular broom is robust yet competitively priced. With 17 wire strands per hole of superior steel wire, it still out performs standard “will-fit” brooms.

17 WPH

Superior steel wire for extended sweeping hours

High impact plastic segments—2, 4 or 5 to a set

Densely packed segments for better sweep coverage

Plastic block segments are easily replaced for minimum downtime

Sweeper Model	Broom Description	Broom Part Number
Geovac and Whirlwind	Steel Wire Plastic Segment Set (2)	7873229
Athey	Steel Wire Plastic Segment Set (4)	7873042
Megawind, Pelican, and Whirlwind	Steel Wire Plastic Segment Set (4)	7873221
Road Wizard	Steel Wire Plastic Segment Set (4)	7873044
Broom Bear, Eagle, Crosswind and Road Wizard	Steel Wire Plastic Segment Set (5)	7873222

## Polypropylene Sweep Side Brooms

Typically used for less aggressive, spark resistant sweeping. Filled with heavy polypropylene filaments for lighter nonabrasive sweeping.

- Heavy, natural polypropylene filaments
- High impact plastic segments—2, 4 or 5 to a set
- Plastic and polypropylene segments are easily disposable
- Plastic block segments are easily replaced for minimum downtime

Sweeper Model	Broom Description	Broom Part Number
Geovac and Whirlwind	Polypropylene Segment w/ Polypropylene Filament Set (2)	1049971
Crosswind Fury, Megawind, Pelican, and Whirlwind	Polypropylene Segment w/ Polypropylene Filament Set (4)	0710020
Broom Bear, Crosswind, Eagle, and Megawind	Polypropylene Segment w/ Polypropylene Filament Set (5)	1047327

## Aluminum Sweep Side Brooms

Sturdy, refillable aluminum segments are filled with up to 24 strands per hole of superior oil tempered or steel wire. These extra heavy duty brooms provide outstanding flick action and superior recovery compared to oil coated or oil quenched “will-fit” brooms.

- Superior oil tempered or steel wire for extended sweeping hours
- Refillable aluminum segments come 2, 4 or 5 to a set
- Densely packed segments for better sweep coverage
- Aluminum block segments are easily replaced for minimum downtime

Sweeper Model	Broom Description	Broom Part Number
Geovac and Whirlwind	17 WPH Steel Wire Aluminum Segment Set (2)	1095410
Geovac, Crosswind Fury, Megawind, Pelican, and Whirlwind	21 WPH Steel Wire Aluminum Segment Set (4)	1094653
Crosswind G and Pelican	24 WPH Steel Wire Aluminum Segment Set (4)	7873231
Broom Bear, Crosswind J, Eagle, and Road Wizard	24 WPH Steel Wire Aluminum Segment Set (5)	7873233

## Aggressor XR Side Brooms

The XR wire cable and wire bristle combination broom cuts through thick mud and compacted debris with ease while sweeping a clean path. Ideal for weed removal, construction sites, milling applications and removing rubber at airports.

- Combination of wire bristle and wire rope
- One piece design for easy removal and replacement
- Rugged welded construction
- Steel mounting plate

Sweeper Model	Broom Description	Broom Part Number
Geovac and Whirlwind	30 inch broom	1071439
Crosswind, Megawind, Pelican, and Whirlwind	36 inch broom	1074477
Broom Bear, Crosswind, Eagle, and Road Wizard	44 inch broom	1074478

## Aggressor XT Gutter Brooms

The most abrasive side broom in the Elgin lineup, the XT can handle all types of compacted debris. The heavy PVC galvanized cable in this broom is designed to tackle difficult sweeping applications where a bristle broom just doesn't cut it.

- Heavy duty PVC galvanized cable
- One piece design for easy removal and replacement
- Rugged welded construction
- Steel mounting plate

Sweeper Model	Broom Description	Broom Part Number
Geovac and Whirlwind	30 inch broom	1071440
Crosswind, Megawind, Pelican, and Whirlwind	36 inch broom	1077224
Broom Bear, Crosswind, Eagle, and Road Wizard	44 inch broom	1077225
